*....you and your
world conected!*

Mobyx soft phone App

Using your cell phone, go to the **Google Play Store** or **Apple App Store** and install the **Mobyx** soft phone app.

Products Manual ⇒ Mobyx App
Cloud phone systems

Mobyx soft phone App

When launching for the first time you will have the choice of putting in your account credentials or using a **QR** Code.

Select the QR code option.

Mobyx soft phone App

Scan directly from your computer screen the QR code received by email, this will automatically log you in and allow you to use the Soft phone mobile app.

Remember press OK and allow in the request made by the app.

Mobyx soft phone App

Push notifications are enabled by default, which means even if the app isn't running your phone will ring when someone calls your office extension number. You can disable push notifications by pressing the **more** button (the 3 dots on the top right of the application screen), selecting settings, and setting **Incoming Calls** to **only in foreground** instead of **Use Push Notifications**
